

St. David's Community Outreach Garden

Take a look at the what's been happening out back! Our new Community Garden is thriving!

The garden is located in the back of the church near the Day School entrance.

The garden is a 4'x8' square foot raised bed garden made from cedar wood that is divided into 32 – 1 foot planting areas. Each 1 foot square is planted with Tomatoes, Peas, Lettuce, Kale and Bush Beans. Harvested proceeds from the garden are taken to the food bank at Lutheran Community Services and deliveries have already begun!

The garden is watered and tended daily by a group of dedicated volunteers. Each square needs about 1 cup of water per day in the afternoon or evening after a day of no rain.

Curious? Want to help? This is a great project for a variety of people and we could use some additional volunteers to help water on Saturdays and Sundays! Contact Scott Doyle via email at: shdoyle18@hotmail.com
